

SPECIAL ATTENTION

WEST RIVER/LYMAN-JONES RURAL WATER USERS

GRINDSTONE AREA & KADOKA RURAL AREA

(PLEASE REFER TO MAP)

CRITICAL-LEVEL WATER RESTRICTIONS

Due to the prolonged drought, sustained high temperatures, and increased seasonal water demand, water usage within the Grindstone Area and the Kadoka Rural Area has reached levels that threaten the system's ability to maintain adequate water supplies and operation pressures for essential domestic and livestock watering.

To preserve reliable service, WR/LJ is implementing the following **temporary mandatory outdoor watering restrictions** for customers served in these areas.

RESTRICTIONS

Effective immediately until further notice:

- No lawn watering is permitted.
- Filling or refilling swimming pools is prohibited.
- Landscape watering for newly planted trees or shrubs may be allowed only by handheld hose or watering can.

These restrictions **do not apply to:**

- Indoor domestic water use.
- Livestock watering.

Area Affected (Please see map)

These critical-level restrictions apply to members served by the Grindstone and Kadoka Rural Tanks, as these two tanks repeatedly reach critically low levels.

Duration

The restrictions will remain in effect until weather conditions improve and system demand returns to sustainable levels. WR/LJ will evaluate conditions daily and notify customers when the restrictions are modified or lifted.

If you have any questions, please contact the WR/LJ office at **605-669-2931**.
